### SUMMARY

Motivated Computer Information Systems graduate with a strong foundation in C++, making it easy to adapt to other programming languages. Skilled in full-stack development with hands-on experience in React, Node.js, C#, Java, and PHP. Independently developed a full graduation project using PHP, showcasing strong problem-solving and self-learning abilities. Completed a 69-hour Full Stack Web Development training (MERN stack) under the "Digital Skills for a Better Future" program by DOT Jordan and UNICEF. Built several projects, including a weather app using APIs, a pizza ordering system in C#, and a banking system demonstrating OOP principles. Proficient in databases, data structures, and fluent in both Arabic and English.

### TECHNICAL SKILLS

- HTML, CSS, JavaScript, Bootstrap, React
- PHP, Node.js
- Databases:
- MySQL, MongoDB
- Windows Forms (C#)
- SQL/MySQL
- Git / GitHub
- Node.js, Express.js, MongoDB

### LANGUAGES

- Arabic (mother tongue)
- English (fluent)

### EDUCATION & COURSES

#### PROGRAMMING, FROM THE GROUND UP TO EXPERT LEVEL

Mar 2023- Dec 2024

Completed all Programming Advices courses, from programming fundamentals to desktop application development, with a strong focus on OOP, Data Structure and problem-solving.

#### FULL STACK WEB DEVELOPMENT

Mar 2023 - Aug 2025

Immersive Full-Stack Web Development Bootcamp over 120 hours of coding, building projects, and solving problems.

#### UNIVERSITY OF JORDAN

Sep 2021- June 2025

Bachelor of Computer Information System

### PROJECTS

#### WEATHER APP

A simple weather app built with React that lets users enter a city name and view real-time weather data using a clean, responsive design.

#### JU EVENTS MANAGEMENT SYSTEM

A web app for managing event booth requests at the University of Jordan, built with PHP and MySQL, replacing paperwork with an online system featuring login, admin approval, and event management.
